1	Oltukai Lodge
2	Oltukai Lodge
3	Severin Safari Camp
4	Salt Lick Safari Lodge
5	Satao Camp
6	Depart

QUOTATION FULL ITINERARY:

DAY 1: ARRIVAL/NAIROBI/AMBOSELI

Arrival of your international flight into Jomo Kenyatta International Airport in Nairobi. Met by our representatives outside customs and immigration halls. Safari briefing and introduction to your driver guide. Morning drive (3 hrs) back to Nairobi for lunch at Ole-Sereni Hotel. Continue during the afternoon to Amboseli (4 hrs) crossing the Athi plains, home of the colourful Masai tribes. Dinner and overnight at your camp/Lodge. Spend 02 nights.

DAY 2: AMBOSELI- B. L. D

Morning game viewing drive in Amboseli Park. Lunch at the lodge and time for a siesta or a swim in the pool before an afternoon game viewing drive. Amboseli is a relatively small yet fascinating park of lush water holes and swamps contrasting against flat open plains and acacia woodlands. Elephant and plains game abound as well as the big cats such as Lion, Leopard and Cheetah. With luck, the snow-capped peak of Mt Kilimanjaro will be visible, creating a spectacular backdrop to the peacefully grazing animals. Full board and overnight at your lodge/camp.

DAY 3: TSAVO WEST- B. L. D.

Morning drive to Tsavo West Park, stopping to see the Shetani lava flow. Afternoon game drive in the park. From Kilaguni, great expanses of open plains stretch in all directions with Mount Kilimanjaro, the Chyulu hills, the Taita hills and Ngulia Mountains on different horizons. The views from Roaring rocks and Poacher's lookout are truly spectacular. Elephant, buffalo, giraffe, lion, leopard, cheetah, rhino and most common species of plains game and smaller mammals are present so wildlife viewing is varied but requires some patience. A visit to Mzima Springs where crystal clear water bubbles up from underground may reveal hippo and crocodile, seen from an underwater viewing hide. Bird life is extraordinarily colourful and diverse with the Ngulia Mountains hosting many migratory species at certain times of the year. Overnight at your lodge/camp.

DAY 4: TAITA HILLS- B. L. D.

Breakfast at the lodge. Depart for Taita Hills Game Sanctuary. Arrive, check-in and lunch at Taita Hills Lodge. Afternoon transferred to Salt Lick Lodge. Afternoon game drives. Taita Hills private Wildlife sanctuary, situated between Tsavo East and West is home to over 50 species of mammals and 300 species of birds within 28,000 acres of rolling savanna and woodland habitats. The Sanctuary is a success story in sustainable conservation where wildlife - including elephant, lion, buffalo and giraffe - thrive. Sarova Salt Lick lodge is set high up on stilts overlooking a waterhole which is floodlit at night when large numbers of animals come to drink giving a rare opportunity to view animals close up in their natural habitat. There is also an underground viewing hide right next to the waterhole which is reached from the lodge by a tunnel. Spend the next 1 night at the lodge on full board.

DAY 5: TAITA HILLS/ TSAVO EAST: B. L. D.

Breakfast at the lodge. Depart for Tsavo East National Park. Arrive, check-in and lunch at your lodge/camp. Afternoon game drives. A vast expanse of unremitting flat savannah plains broken up only by the Yatta plateau lava flow, the Galana river and occasional rocky outcrops. Being of lower altitude than the Western park, Tsavo East is hotter and dryer with bushy grassland, Acacia woodland and riverine forest along the water courses. Most game viewing is concentrated South of the Galana river. Here, large herds of "red elephant" can be found, so called because of the red Laterite soil common to this area. In addition, rhino, lion, leopard, waterbuck, kudu, gerenuk and the rare Hunter's Hartebeest can be seen. Aruba dam provides permanent water and interesting game viewing while the views from Mudanda rock and the Yatta Plateau lava flow are well worth the scramble to the top. Spend the next 1 night at the lodge on full board.

DAY 6: TSAVO EAST/NAIROBI: B.

Breakfast at the Lodge. Depart for Nairobi. Arrive and lunch on own arrangements. Later met and transferred to Jomo Kenyatta International Airport for your international flight out.

*****End of our services*****

- Passengers arriving in Kenya and Tanzania may be asked to present a valid Yellow
- Fever Vaccination Certificate.

The price quoted and services will be subject change depending on availability at the time of booking.

SAFARI TIPS.

While planning an East African Safari can seem like a daunting task, it doesn't have to be! Take the stress out of the experience with this helpful summary of the key things you need to think about before you jet off. Once you have all of them covered, you can sit back, relax, and look forward to your safari adventure.

Note:

While this is a general guide to vaccinations required for your East African safari, you should always visit your doctor before your departure to obtain the best advice. A pre-trip health check and discussion of what vaccines are necessary for you, as well as how to deal with any unique health concerns, is imperative for a safe and enjoyable safari.

4. Clothing

On an East African safari, you should go for comfort and convenience when it comes to your clothing. Some of the things you should remember, include:

- Bring lightweight layers in both long and short lengths, plus socks, sleepwear, and swim wear.
- Always take a sweater or fleece jacket, as it can get quite chilly at night and during early mornings.
- Unless you're planning to trek, bulky hiking boots are rarely necessary. However, a comfortable pair of lightweight trainers are a must and if you're planning on going to the beach after your safari, don't forget your flip-flops.
- Don't forget a hat, as you'll want to protect your face and scalp from the equatorial sun.
- It's not recommended to wear bright colors on safari, so consider buying some khaki, dark green, or darker colored clothes before your trip.

Passports & Visas

- A full passport with at least six-month validity from the date of departure is generally required for travel.
- It is recommended that travelers contact the relevant Consulate/Embassy prior to travel for current visa requirements.

Applying for a Kenyan Visa

- NEW VISA REQUIREMENT: From 01 January 2021 all visitors requiring a visa to enter Kenya will need to apply for an e-visa online,
- in advance before leaving their country or boarding the aircraft.
- No Visas will be issued on arrival in Kenya. Click this link for more information about how to apply.
<http://evisa.go.ke/evisa.html> \$50 USD application fee

Applying for an East African Visa

One of the greatest things to happen to East African tourism over the past few years is the introduction of the East African visa. This visa allows you access to Kenya, Uganda, and Rwanda, and it's not only a time saver, but it also works out considerably cheaper than purchasing individual visas.

To apply for the East African Visa, you'll need the following:

- A passport with at least six months validity
- One standard sized passport photograph
- A completed application form

Tip: It's important that you apply for the East African visa with the country from which you will begin your travels. The visa will be valid for 90 days from the date marked in your passport.

Currency

- Credit & debit cards (MasterCard, American Express, Diners Club and Visa) are widely accepted in the cities. ATMs banks and Bureau de Changes are found throughout major towns. Cash is king, although it is advised that you limit the amount of money you carry on your person.
- Some African countries will accept USD, GBP or EUROS, but Kenya requires Rand (KES).
- Most safaris are all-inclusive when it comes to food and drink, but you still need money for certain activities, local purchases, and tipping. That's why it's a good idea to carry some local currency with you.

Carrying US Dollars

The US dollar is widely accepted by international hotels and safari camps in East Africa and travellers cheques are also an option. Visa cards are usually a safe bet, no matter where you go.

Tip: You may want to consider changing money at the airports, as banks there usually give better exchange rates than hotels.

Health & Medical Facilities

***** All of the countries we represent are Ebola free *****

- Ensure that you have adequate travel & health insurance cover.
- South Africa has excellent medical care and facilities compare favorably with international standards.
Malaria Vaccinations & Yellow Fever Certificates may be required for certain countries.
- Please consult your local doctor or travel clinic for advice prior to departure for appropriate medication.

Vaccinations and Health Requirements

When travelling to East Africa, there is only one shot that is compulsory, and that is the yellow fever vaccine, but there are other health precautions and vaccinations recommended by the WHO and CDC, which include:

- Typhoid
- Hepatitis A and B
- Meningitis
- Polio
- Influenza
- Measles, mumps, and rubella (MMR)

Tipping

Tipping is optional and dependent on the level of service. Although it is customary and considered an insult if you do not.

- As a guideline, a minimum of 10% should be added to restaurant bills.
- For guides and/or drivers please calculate USD 5 - 9 per person per day (or equivalent).
- For rangers and trackers when on safari please calculate USD 5 - 9 per person per day (or equivalent).
- Porterage ranges between USD 1 - 2 per person per service (or equivalent).
- For helpful petrol attendants, USD 1 (or equivalent) is perfectly acceptable.
- When assisted by a car guard, it is a custom to tip USD 1

Tax

Value-added-tax (VAT) of 14% / 16% is charged on most items.

When visiting South Africa & Namibia, be sure to request a tax invoice for larger purchases as foreign visitors may claim back VAT paid on items taken out of the country when the total value

exceeds USD 18.93. It is advisable to keep these purchases in your hand luggage as you will need to present the items at the VAT Refund Administration for inspection and endorsement of the tax invoices when departing the country.

A Tax Invoice must include the following:

- The words "Tax Invoice"
- A Tax Invoice number
- The seller's VAT Registration number
- Date of Issue of the Tax Invoice
- The seller's name and address
- The buyer's name and address
- A full description of the goods purchased
- The cost of the goods in Rands
- The amount of VAT charged or a statement that VAT is included in the total cost

Wildlife Photography

Animals don't stop for selfies, so be quick on the finger!

- Avoid getting too close, some animals are dangerous and in the wild - uncontrollable. Experiment at home in the garden and with the cat or dog to learn how your camera works and perfect your technique. For instance, which is the anti-motion, or motion button? Does it have a landscape function? What sort of zoom range does it have? How do you set it to manual and change the aperture and shutter speed?
- Observe the animals silently and with a minimum of disturbance - loud talking on game drives can frighten the wildlife away. Early morning and evening game drives offer exceptional lighting opportunities.
- Don't be in a hurry to cover the most distance, stay in a well set up position for a while - you'll be amazed by what may enter your frame.

most importantly, be sure to enjoy the whole view - not just the one from behind your lens. Stop and look around every once in a while!

Safety

Most areas are as safe as any other destination in the world, however, basic common-sense precautions should be used:

- Ask the concierge at your hotel which areas are safe to walk around in and when
 - Travel in groups or pairs and always choose well-lit areas
 - Order taxis or transport ahead of time
 - Carry only as much cash as necessary
 - Don't leave your property unattended
 - Be aware of pickpockets and petty criminals
 - Don't draw attention to yourself by flaunting valuables around openly or counting your cash at the ATM
- Carry a copy of your passport in a separate section of your luggage

What to Bring on Safari

Clothing

Most lodges and safari camps offer laundry as part of their service, so you can afford to pack lightly.

- 2x khaki/brown cotton trousers
- 2x pairs khaki/brown shorts
- 3x long sleeved shirts/blouses
- 1x fleece/jersey
- 1x lightweight, waterproof jacket
- 1x Swimming costume
- 1x Walking or hiking boots
- 1x Sandals
- 4x short-sleeved shirts or T-shirts
- 5x underwear 5x socks
- 1x Hat with a brim
- 1x Gloves (if you really feel the cold)
- 1x Sarong or kikoi type garment

The Must-Haves For Your East African Safari

Before you leave for your East African Safari, make sure to have these items packed and ready to go:

- Mosquito repellent
- Sunblock/Body lotion
- Any prescription drugs (keep these in your hand luggage)
- A camera
- Electrical adaptors
- Sunglasses
- Binoculars (a pair per person)
- A small bag or day pack

The Basics

- Sunscreen
- Toiletries
- Insect repellent
- Sunglasses
- Camera (with extra memory card and batteries)
- Binoculars
- Lip balm
- Hand wipes
- Wildlife checklist (or just paper) & a pen

CANCELLATION POLICY.

In the event of written cancellation, the following forfeiture of the programme cost will be assessed based on the number of days prior to programme departure that the cancellation was received:

- 90-60 days prior 20% of the programme cost
- 59-30 days prior to 50% of the programme cost
- 29 days or less 100% of the programme cost

END OF OUR SERVICES!!

WISHING YOU AN EXCELLENT SAFARI!!

"I Hope you have an experience that alters the course of your life, because after Africa nothing has ever been the same"-SUZANNE E
